## Patient Preparation for Ultrasound Exam/Biopsy

### For Pelvic or Obstetrical Ultrasounds

- Your bladder must be full
- Drink lots of water on the day of the scan and make sure that you are well hydrated
- You may empty your bladder as usual. Drink 2 FULL cups of water 1 hour before the scan

### For Abdominal Scans

- No food after midnight on the day of the scan
- No smoking, no chewing gum, and no carbonated beverages
- You may drink water, apple juice, clear tea or clear coffee

### For Renal and other scans:

- No preparation necessary

### For Prostate Biopsy

- Nothing to eat or drink after midnight on the day of the procedure
- You will need blood work in advance for INR
- Take a Cipro Antibiotic before going to bed
- Take another Cipro an hour before the procedure
- Stop taking any anti inflammatory medication, aspirin or coumadin
- The procedure takes 1 hour, however you must stay at least 2 hours for monitoring
- Pathology Reports are ready in 3-5 business days

### For Liver Biopsy

- Nothing to eat or drink after midnight on the day of the procedure
- You will need blood work in advance for INR

### For Thyroid, Breast, Lymph Node, and Aspiration Biopsy:

- No preparation necessary

## Our Commitment

We believe quality patient care is based on three basic principles: 1. Compassionate Care, 2. Quality Service, 3. Timely Approach. Achieving excellence at a healthcare facility takes years of dedication. Our medical team of over 100 physicians, surgeons, specialists, medical practitioners and support staff are carefully chosen for their professional qualifications and dedication to care.

## Centre of Excellence

Established in 1997, False Creek Healthcare has become one of Canada's most renowned independent health providers. This state-of-the-art facility offers first class service to those who seek immediate access to the best medical care Canada has to offer. The unique advantage of this facility is its comprehensive nature, with all medical departments under one roof: Urgent Care, Advanced Diagnostics, Specialists, Surgeons, Family Practice, Executive Health & Wellness, and Cosmetic Surgery.
